BASED IN: Paris, France

EDUCATION

- Ph.D. in Applied Mathematics** Dec 2021 – July 2025
Gustave Eiffel University / University of Toulouse Champs-sur-Marne / Toulouse, France
- **Thesis title:** Learning with system constraints: applications to fairness
 - Member of LAMA, IMT and CELESTE teams
- Master's Degree in Mathematics and Applications** Sep 2020 – Nov 2021
Paris-Saclay University Orsay, France
- **Program:** Statistics and Machine Learning of M2 Mathematics of Randomness
- Bachelor's (with Honour) Degree in Mathematics** Sep 2015 – May 2019
Yerevan State University Yerevan, Armenia

WORK EXPERIENCE

- Postdoctoral Researcher** Oct 2025 – present
Télécom Paris Palaiseau, France
- Doctoral Student / Study Engineer** Jan 2025 – April 2025
Gustave Eiffel University Champs-sur-Marne, France
- Employed as a study engineer within an extension contract for doctoral studies.
- Doctoral Student** Dec 2021 – Nov 2024
IRT SystemX Palaiseau, France
- Employed as a doctoral student within "confiance.ai" program in collaboration with Gustave Eiffel University and University of Toulouse.
- Research Intern** Jul 2021 – Oct 2021
CREST/ENSAE Palaiseau, France
- **Topic:** Fairness-Adjustment Methods for Regression
- Machine Learning Engineer** Dec 2018 - Aug 2020
labz.ai Yerevan, Armenia
- **Main responsibilities:**
 - * Data analysis, extraction of business insights from the data
 - * Building predictive models
 - * Reading relevant scientific papers for possible integration into the projects
 - * Delivery of final models to the development team or clients as an API, Docker Image, etc.
 - **Tools:** Python (NumPy, Pandas, Scikit-learn, PyTorch, Keras, SciPy, Statsmodels, spaCy, NLTK, OpenCV, Matplotlib), Git, Docker, MongoDB, etc.
 - **Projects** in fields of data mining, image processing, natural language processing, recommender systems, etc.
- Machine Learning Lecturer** Jan 2020 - Apr 2020
Zil Academy Yerevan, Armenia

- **Responsibilities:**

- * Explaining common machine learning algorithms to group of students. Helping to implement those algorithms in Python and to apply them on real datasets.
- * Preparing and checking homework.

Secondary school teaching assistant
